

TIRE SERVICE INTERNATIONAL

## STE-M Siper

- The STE-M is designed for high volume tire shops to maximize efficiency, each tire taking as little as 4 minutes!
- STE-M can sipe tires up to 18" in width, passenger or commercial (rim sizes 12" - 24.5")
- Any type of tire can be siped (new, re-cap, or used) as long as it has 5/32" of tread left
