

CHAIN-IT TIGHT™

Let Chain It Tight do the work for You!

How to Use:
Chain It Tight was designed to make putting your Tire Chains on, much faster, with less chance of cutting hoses, causing damage to your equipment or losing your chains on the highway!

Step 1. Put The Chains around tire.

Step 2. Hook back of chain so it won't pull over top of tire when tightening, with Chain It Tight.

Step 3. Hook front of the chain so chains are snug if your chains have cambers close from tires.

Step 4. Put Cable stop pins from space.

Step 5. Attach Chain It Tight to tire chain by pressing 5 Hooks spaced evenly around chain.

Step 6. Tighten cable around wheel (after wig) with 3/8 or 1/2 inch ratchet, until chains are tight.

Step 7. Replace cable stop pins behind cable so cable can not unwind from wheel.

Never remember drive are made in this, so do not over tighten your tire chains. Call us your tire chains or the cross members are tight across the.

Thank You for Using Chain It Tight please call 208-740-9027 with any questions.
