

S-1400M UNIVERSAL TRUCK FRAME LIFT

60" of reach and a 7 ton lifting capacity

PRODUCT FEATURES

The **S-1400M Universal Truck Frame Lift** is a fast action, longer reach air lift jack that is specially engineered to meet the requirements of heavy-duty equipment shops. The 60" between the cylinder and the lift pads, lets you reach under the vehicle and lift by the frame — the safest way! Anywhere an air hose will reach, you have low-cost lifting power with one-man portability. The two larger center wheels allow the S-1400M to maneuver for easy positioning. Trigger the dual action valve to raise or lower up to 7 tons.

Maximum lift height 44"

Minimum height 11.5"

Max width between saddles is 60"

SHIPPING SPECIFICATIONS:

90" L x 36" W x 51" H
